SANJAY DUTT

Frontend Developer

React JS

Developer

INTRODUCTION

Hi there! I'm Sanjay Dutt, a new frontend developer with a strong foundation in HTML5, CSS, and JavaScript. I'm also proficient in using Tailwind CSS for creating responsive and modern UIs.

Additionally, I have experience with TypeScript for writing scalable and maintainable code, and I'm familiar with using Redux for state management in React applications. Speaking of React, I've also worked with React JS extensively to build dynamic and interactive web applications.
